▶ Highly Available Network Storage Solution

Hardware RAID Controller

ShareDisk™ Pro 200 "Dual Drive" is equipped with hardware RAID controller, which provides high speed and reliable RAID levels. By default ShareDisk™ Pro 200 is configured with RAID 1 (mirroring). Even if one of the HDD is damaged the ShareDisk™ Pro 200 is available for continuous usage. RAID 0. (stripping) is also supported.

Direct Data Transfer through eSATA or USB

ShareDisk™ Pro 200 is always available, even when your network not available. Its eSATA and USB interface allows high performing and universal availability at all times.

No TCP IP, No DHCP Settings Required

Don't bother with TCP/IP configuration. Simply connect ShareDisk™ Pro 200 to LAN through its Ethernet port, install the driver, register - and that's all Highly Available Professional Class Network Storage

▶ Performance Driven Network Storage

Network Drive with the Speed of an Internal Drive

Powered by NDAS 3012, ShareDisk™ Pro 200 out performs any network storage of its size. With the transfer rate of 60MB/s, ShareDisk™ Pro 200 is about 3~4 times faster than current NAS products.

The Ideal Network Drive for Heavy Traffic Application

Ideal storage for multimedia files larger than 1 GB. Unlike NAS products NDAS technology does not depend on buffer size. The data transfer speed remains constant even for large files. Multiple users can access and stream video or access data without bottle-neck problem.

True Block Level Access

Unlike NAS products, NDAS is a Block Level sharable storage like iSCSI.

No Booting Required

Off to On & ready to use in 10 second

► **Powerful Extra Features**

Supports all File Systems

You can format the storage with any file system of your choice. Other than mostly used NTFS, you can format the storage with file systems like FAT32, FAT16, ext2/3, ReiserFs, HPFS, & etc.

Supports all Partition Types

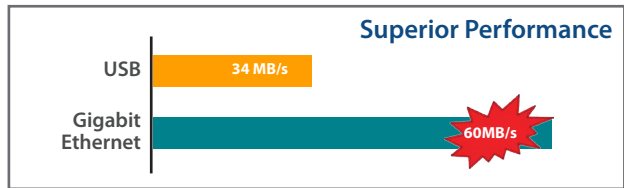

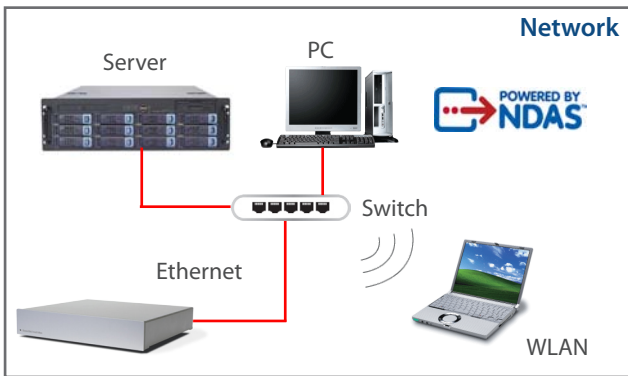

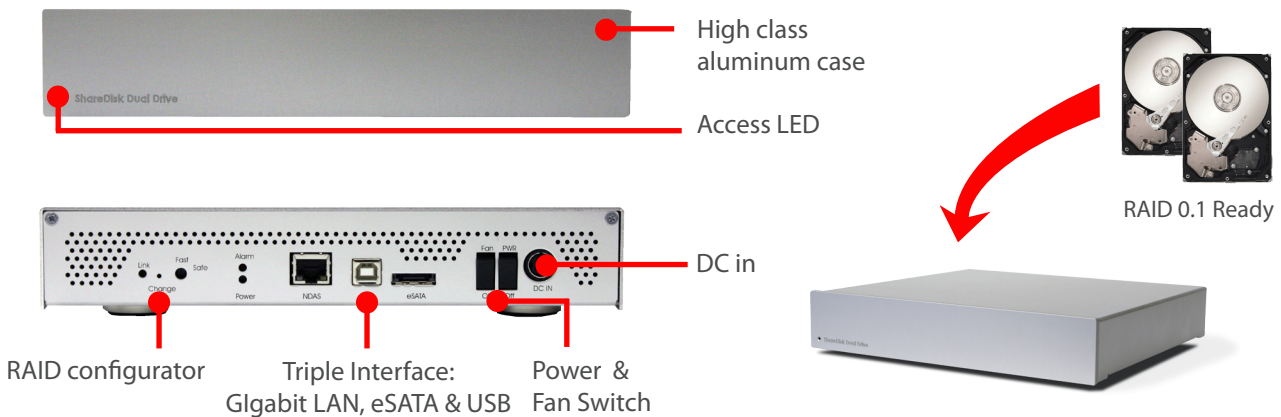

Primary partitions, logical devices, Linux- partitions, Mac OS X- partitions.

Supports most of the Disk and Backup Tools

ShareDisk™ is recognized and works just like a local drive. You can use any backup softwares easily, without extra configurations.

ShareDisk™ Pro 200 is Designed to be Stackable

Stack additional ShareDisk™ Pro 200s to create massive network RAID storage.

► **Specifications**

General

- Dimension (W/L/H): 250/240/40 mm
- Weight : 2.5 Kg

Interface

- Host connectivity: 1000 Mbps LAN, eSATA, & USB 2.0

RAID Controller

- Hardware RAID Controller Integrated
- Supported RAID Levels: 0, 1

Hard Drives

- 2x SATA Drives

Power Supply

- 120/230V AC (50/60Hz)

Supported O/S

- Windows 2000/2003/XP/VISTA, Linux, Mac OS 9.0 or later

Product Warranty

- Limited 2 years
