

SHAREDISK SOHO SERIES

ShareDisk Portable Ethernet and USB 2.0 Combo Hard Drive

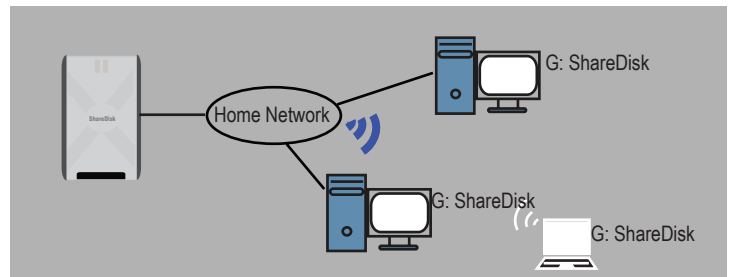

(SDP)

ShareDisk is a simple centralized network storage for home and office. ShareDisk is designed from the ground up for easy expansion. Its fast transfer rate makes it ideal for multimedia applications.

Simple Central Storage – Just connect ShareDisk Portable into an Ethernet network switch, install the driver software and simply use it just like a local drive from each computer in the network.

Easy Expansion – Add ShareDisk Portable units, as many as you need, to a network switch for even greater capacity.

Controlled Security – Each ShareDisk Dual Drive has a unique hardware ID and access keycodes, which allows you to specify which computers have read and write access, read access only, or no access to ShareDisk. ShareDisk does not have IP address and is invisible from external hackers.

Plug-n-play Portability – NDAS technology eliminates the need for TCP/IP settings or further complicated settings. Get the benefit of direct networking for numerous computers, or use immediately through high-speed USB 2.0 connection for one computer.

Fan-less and low- noise operation – ShareDisk runs without a noisy fan. Built-in rubber bases absorb vibrations when ShareDisk lies on the table.

“Save Everything and Share Everything.”™

Revolutionize your home network with ShareDisk Portable!

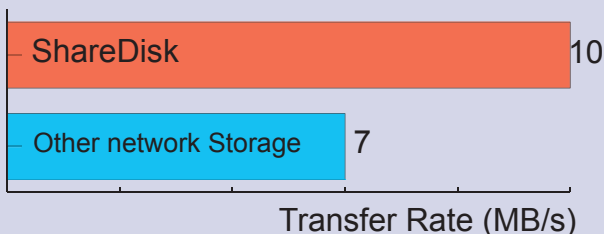

Product Specifications

Model Number : SDP-160 / SDP-250 / SDP-500
 Formatted Capacity : 160GB, 250GB, 500GB
 Interface : Gigabit Ethernet / USB 2.0 and USB 1.1
 Cable Type : Category 5e or better
 LEDs : 2, (Power and Link/Active)
 Made in Germany

Drive Performance Specifications

Average Read Seek : 8.9ms average
 Track-to-Track Seek : 0.8ms average
 Average Latency : 4.17ms average
 Rotational Speed : 7,200 RPM
 Buffer : 8MB / 16MB
 Drive Ready : 7 Sec.

High Performance Network Storage

SHAREDISK SOHO SERIES

Features

- Plug & Play Installation
- User Friendly Operation
- High Performance
- Mirroring (RAID 1)
- Striping (RAID 0)
- Secure Storage
- Energy Save Mode

Supported Operating Systems

- Windows 2000 / XP / 2003 / Vista
- Linux Kernel 2.6 or higher
- Mac OS 10.3 (Panther) / 10.4 (Tiger)

Package Includes:

- ShareDisk Portable
- Power supply
- Ethernet cable
- USB cable
- Installation CD
 - Includes NDAS device management software / driver / multi-language user's manual
- Quick installation guide

Physical Dimensions

H x L x W : 119.5 x 210.5 x 36.5 (mm)
Weight : 1.7 Kg (with HDD)

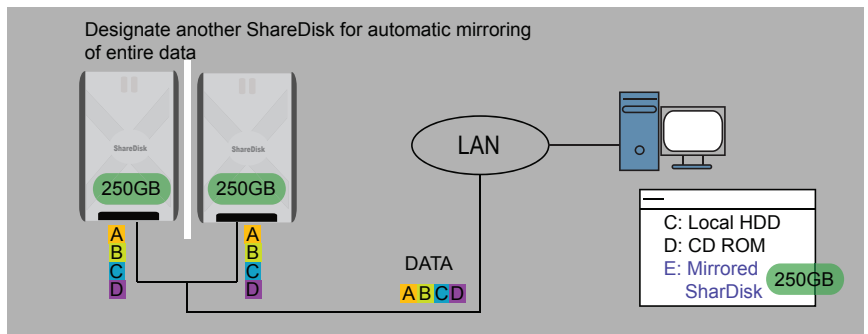

Power Requirements

AC input voltage : 110~220 VAC
AC input frequency : 50~60Hz
AC output current (converted power) :
5V, 1.5A / 12V, 1.5A

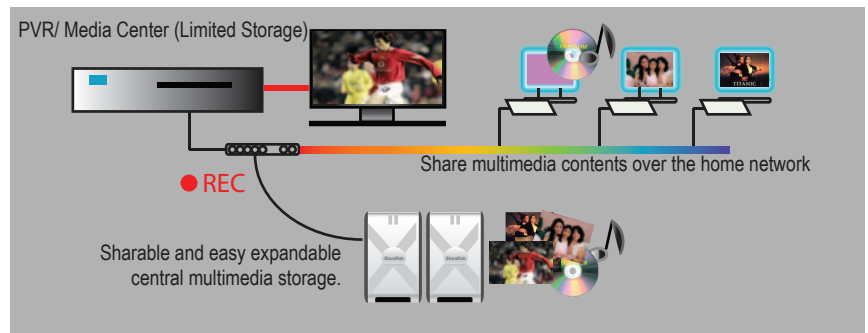

Warranty

2 years limited warranty

RAID – NDAS allows Striping (RAID 0), Mirroring (RAID 1), and Aggregation when using multiple drives.

Central Multimedia Storage – Direct storage connection to the network allows faster data process speed, which makes ShareDisk ideal for saving and sharing multimedia files.

Powerful Bundle Software – Enjoy enhanced features of ShareDisk with the highly valued software included with every ShareDisk.

Multiple clients in the home network are allowed to install **Acronis True Image 9 Share-Disk Edition** to transform ShareDisk into a powerful backup hub for the whole network. Backup important files or even total system to ShareDisk and restore it whenever you need to.

Use **Cryptic Disk 2** to secure your valuable data in ShareDisk against unauthorized access with unbreakable 256 bit AES encryption with user friendly interface. It works over the network or via USB. When you lose your ShareDisk, no one will be able to read your data.
